Wednesday, August 07, 2019

Texas Mechanical Engineering PhD student Yoonho Seo won the Outstanding Paper Award in the Poster Presentation Category at the Transducers 2019 Conference in Berlin for the paper titled "High Temperature Piezoelectric Pressure Sensors for Hypersonic Flow Measurements" and co-authored with Donghwan Kim and Prof. Neal A. Hall [3].

The Transducers conference [4] is held every six years and is one of the premier microelectromechanical systems (MEMS) conferences in the world.
